

SCIENTIFIC ISRAEL – TECHNOLOGICAL ADVANTAGES

CONTENTS

No. 2 CIVIL ENGINEERING

Yu.Borisov, A. Polikutin, Nguyen Phan Duy

Research of Reinforced Two-Layer Beams Made from Conventional
And Rubber Concretes

I. Surovtsev, Yu. Borisov

Durability and Deformability of Reinforced Concrete Bending
Structures Strengthened by Polymeric Composites

S.Barkalov, O.Budkov, Ye.Sidorenko

Choice of Effective Organizational and Technological Decisions under
Reconstruction with Consideration for Ecological Monitoring

Barkalov, L. Salinkov, D. Zolotarev

Modeling of General Contractor-Subcontractor Interaction in Construction

I. Shelekhov, O. Dryanov, L. Dukhovny

Comparative Analysis of Radiator Heaters and Central Heating System

I. Ivanova, S. Kolodyazhny, M. Manokhin

The Problem of Analysis of Environmental Threat Criteria
on Asphalt Concrete Plants

B. Menin

Ice Storage System in Israel

V. Babaev, E. Melamed, E. Voichek, D. Beilin

Design of Foundation by Software Package “MivneCAD”

No. 3 MATERIALS ENGINEERING

N. Simonova, V. Anikina, E. Nikiforova, E. Astafieva

Solidification Process of Double Nitrate of Lanthanum Bismuth

M. Kurbanov, A. Bayramov

Electret Composites Polymer-Piezoelectric with Deep Trapping Centres
on the Interphase Boundary

Yu. Borosov, Yu. Potapov, O. Figovsky, D. Beilin

Water Resistance of the Polymer Concrete

S. Gaidar, R. Nizamov, M. Golubev

Conception of Corrosion Inhibiting Factors Creation with the Usage
of Nanotechnological Approach

M. Ioelovich

Structure and Mechanical Properties of Cellulose Nanocrystallites

E. Korolev, A. Inozemtsev

Investigation of Ultrasonic and Thermal Effects' Influence on the Size
Distribution of Carbon Nanoaddmixtures

O. Sinitsyna, G. Meshkov, I. Yaminsky

Dislocation Structures on the Graphite Surface

O. Figovsky, E. Gotlib, D. Pashin, A. Mokeev

The Production of Polymer Tracking Membranes by Super Deep
Penetration Method

N. Lukuttsova, E. Gornostaeva

Influence of Micro- and Nanodispersed Additions on Qualities
of Wood- and Cement Compositions

N. Lukuttsova, E. Matveeva, S. Lukashov

Research of the Nanosilica Modified Cement Stone Structure Formation

R. Wasserman

Behaviour of Concrete Structures upon the Impact of UV
and Rain of Natural Acidity pH

G.Muravin, B.Muravin

Quantitative Acoustic Emission Non-Destructive Inspection Method
and its Application for Revealing, Typifying and Assessing Flaws
in Specimens Prepared by Laser Sintering

LETTERS

I.Yaminsky

Open Experimental Internet Practical Studies in Nanoscopy
